

# Water Purifier HARRY (CHP-590-N)

|                   |                                     |            |
|-------------------|-------------------------------------|------------|
| Product Name      | HARRY                               |            |
| Product Code      | CHP-590-N                           |            |
| Rated Voltage     | 220 V – 240 V                       |            |
| Power Consumption | Heater                              | Compressor |
|                   | 500 W – 600 W                       | 0.7 A      |
| Tank Capacity     | Hot                                 | 3.0 L      |
|                   | Cold                                | 3.0 L      |
|                   | Ambient                             | 6.0 L      |
|                   | Total                               | 12.0       |
| Dimension         | 260 mm(W) X 448 mm(D) X 1150 mm (H) |            |
| Net Weight        | 27.0 kg                             |            |
| Price             | Outright                            | RM 3,960   |
|                   | Rental                              | RM 123     |

## Product Filtration

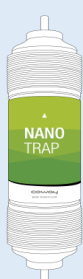

### NEO-SENSE

- Filter mud rust, sand and chlorine.

• 4 months

### NANOTRAP™

- Filter bacteria, viruses, heavy metals, almost contaminants (0.01 micron).

• 12 months

### PLUS INNO-SENSE

- Make water taste better and prevent fine carbon.

• 8 months

### ANTIBACTERIAL

- Prevent the growth of microorganism (bacteria).

• 12 months

## WHAT MAKES HARRY SO SPECIAL?

### Coway Nanotrap™ Filter System

- This innovative filter has a large surface area and contains Nanofibre (effectively reduces bio-fouling materials such as cell debris, bacteria, viruses, etc) with a patented Electrospun coating (Nano Alumina Fibre 0.01μ). Furthermore, the enhanced performance and high-turbidity elimination process increase the water flow rate.

### Contamination Free Ice

- The water used to generate ice from the water tank which the water already purified by Coway water filtrations.

## FEATURES & FUNCTIONS

### Dispenser Lighting

- Customer able see and dispense water or ice during no light environment.

### Power Saving System

- It help to reduce power consumption.

### Smart & Minimalist Design

- Simple yet elegant design product.

### Modern & Neat

- The product structure neat and do not take too much space.
